### To make:

Lay out 26 strips in a pleasing pattern as in image above. Sew one strip to the next along the length using a 1/4" seam. Every few strips, check to make sure everything is straight and correct if needed when you sew the next strip.

When finished, trim any ragged edges and square up the quilt top if necessary. Cut 6-8 remaining strips into 14" pieces; sew together at random to make one long strip; minimum 214". Make a quilt sandwich and bind using your favorite method.
