NON-SLIP Perfect 10 Ruler

The Creative Grids® Perfect 10 Ruler cuts an array of "precut" shapes from a 10" square or from scraps. Use the darker dotted line markings to cut 2½" squares/strips, 5" squares/strips or 9½" squares quickly. Each inch is marked by solid black lines and every half inch is marked by hashed black lines. Using both the solid and hashed black lines, the possibilities are endless!

Cutting 2½" Strips

Align the edge of your 10" square on the 2½" line, then cut along the outside edge of the ruler.

Cutting 2½" Squares

Line up the darker dotted 2½" lines on the ruler to cut 2½" squares from scraps. Or, follow the instructions for cutting 2½" strips, then sub-cut into 2½" squares.

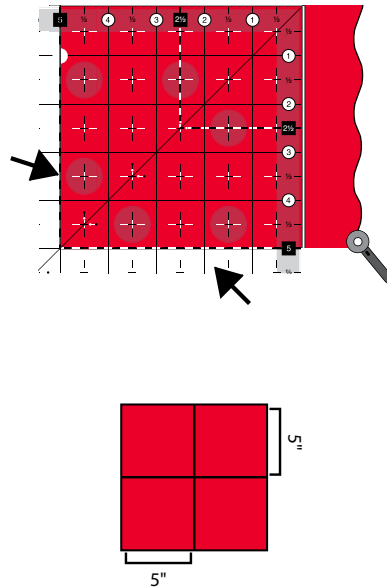

Cutting 5" Strips

To cut a 10" square in half - or to cut a 5" strip - line up the edge of the fabric with the darker dotted 5" line on the ruler. Cut along the outside edge of the ruler.

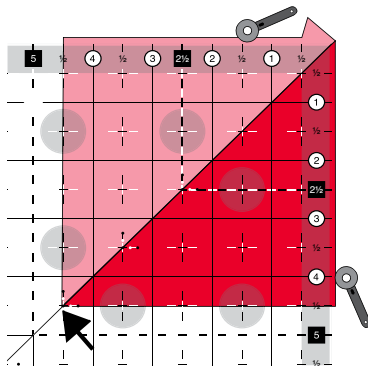

Cutting 5" Squares

Follow the instructions for cutting a 5" strip, then sub-cut that strip into two 5" squares by aligning the edge of the fabric with the two 5" darker dotted ruler lines. Cut along the outside edge of the ruler.

Squaring-Up Half Square Triangles

Place the ruler over the oversized half-square triangle block, and align the diagonal seam along the 45 degree line, corner to corner. Cut along the outside edge of the ruler, trim two sides. Rotate the block 180 degrees and trim the other two sides. (Example is 4 1/2")

Cutting 9 1/2" Squares

When sewing 5" Charm squares together into a 4 patch, the resulting block is 9 1/2". To trim up - or cut out - a 9 1/2" square, align the fabric along the darker dotted 9 1/2" ruler lines. Cut along the outside edges of the ruler.
