Long Arm Machine Quilting Intake Form

Quilt Preparation Checklist:

We will treat your quilt as our own, exercising our high standard of care and service. We want you to be happy with your quilting design. Please go through the checklist to be sure you have done everything necessary to enable us to do the best job possible with your quilt. Understand that machine quilting will not "fix" fullness, puckering, poor sewing, inadequate seam allowance, improperly measured borders, or the squareness of your quilt.

1. In order to properly load your quilt onto the long arm quilting machine, your backing must be a minimum of 4" larger on all four sides than the pieced quilt top. Maximum width for our machine is 120". (We do not accept bed sheets as a backing fabric.)
 2. All threads must be trimmed.
 3. Quilt top and backing must be flat and well pressed; no embroidery, applique, embellishments, loose fabric, etc.
 4. If the quilt top or backing is directional, please indicate with a pinned note.
-

Service Authorization:

I hereby authorize Bear Creek Quilting Company to perform the long arm machine quilting listed above to be done to my quilt. I understand that I am financially responsible for the cost of services rendered by Bear Creek Quilting Company and for all the materials used in this process. I further understand that Bear Creek Quilting Company is not responsible for any damages to the quilt by any cause that is beyond their control, including but not limited to flood, fire, theft or mechanical failure. If the quilt is displayed in a show or publication, you agree to credit the machine quilting to Bear Creek Quilting Company.
